

C. A. D. D. S. S.

Choices—Alcohol—Dangerous—Distracted—Speeding--Seatbelts

Our program mission is to serve as a compass for youth to make healthy, safe choices, while enjoying an active life without regrets. It is meant to prevent tragedies and life altering events.

Through C.A.D.D.S.S. we will target safety and prevention.

C.A.D.D.S.S. is one hour in length and there **is absolutely no charge for this program.**

Accident Awareness designed **C.A.D.D.S.S** specifically for students who are graduating high school and planning to attend post prom parties.

- Participants will hear from presenters who have seen **firsthand** the tragedies that surround serious or fatal motor vehicle collisions.
- They will be informed of how the decisions they make today can change and impact of their lives tomorrow.
- How peer pressure and taking risks can end in life altering injuries.
- Presenters through visual aid and experience will educate participants on how alcohol and drugs impact the human body and decision making.
- How being distracted by electronics or passengers can turn a fun night out into a bad night.
- How friends can influence your driving habits from speeding to lack of seatbelt use.
- They will hear the harsh realities of **everyday** events that have impacted others.

choices cannot be undone.

The goal of this presentation is to inform participants to plan ahead, have fun and Survive the Day!

Our Presenters are retired, or soon to be retired Police Officers who specialized in the investigation of fatal motor vehicle collisions. There are no uniforms worn and everyone is aware of what their professions were in the past and present.

IT SHOULD BE NOTED THAT ACCIDENT AWARENESS HAS BEEN OUT IN THE COMMUNITY SINCE 1993. WE ARE IN OUR 30th YEAR OF OPERATION AND WE HAVE NEVER CHARGED A SCHOOL FOR ANY EVENTS DURING THOSE YEARS
